Charley B. Newson was sentenced to serve two years, suspended, two years probation in Coahoma County, Mississippi for grand larceny. His sentence began on July 24, 1963.

Mr. Newson has complied with the provisions of Section 124, Article 5, Mississippi Constitution of 1890 by publishing his petition for pardon for the time and in the manner provided.

On June 20, 1976, the Governor ordered that Mr. Newson's civil rights be restored.

There is substantial doubt about the facts supporting Mr. Newson's conviction. The offense occurred twenty-eight years ago, and Mr. Newson has since been a law abiding, contributing member of his community by serving on numerous boards, helping to establish programs that brought jobs to the community, assisting the poor and participating in civil rights efforts.

As a result, I, Ray Mabus, Governor of the State of Mississippi, under and by virtue of the authority vested in me by the Constitution and Laws of this State, do hereby grant to Charley B. Newson a full and complete pardon of the crime of grand larceny for which Mr. Newson was convicted by the Circuit Court of Coahoma County, Mississippi, on July 24, 1963.

This pardon is recommended by the State Parole Board, after a complete and thorough investigation and upon apparent miscarriage of justice.

Further, it is ordered that a certified copy of this Executive Order be forwarded to the Circuit Clerk of Coahoma County, Mississippi, for entry on the docket of the Court and filing in the cause.

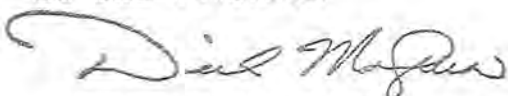

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

Elvin Wayne Mills was sentenced to serve three years, suspended, five years probation, 480 hours community service in Rankin County, Mississippi for sale of a Schedule III controlled substance. His sentence began on February 8, 1985. He was discharged from probation on April 11, 1988.

Mr. Mills has complied with the provisions of Section 124, Article 5, Mississippi Constitution of 1890 by publishing his petition for pardon for the time and in the manner provided.

After a review of the law and the facts in the case by District Attorney David B. Clark, it appears that Mr. Mills' case was based on facts that do not constitute a felony. It also appears that Mr. Mills did not himself commit the act with which he was charged.

As a result, I, Ray Mabus, Governor of the State of Mississippi, under and by virtue of the authority vested in me by the Constitution and Laws of this State, do hereby grant to Elvin Wayne Mills a full and complete pardon for the crime of sale of a Schedule III controlled substance for which Mr. Mills pled guilty in the Circuit Court of Rankin County, Mississippi, on January 24, 1985.

EXECUTIVE ORDER NO. 679

One of the most widely-recognized indicators of the health and well-being of a society is its infant mortality rate. In addition to the high numbers of babies who die in their first year of life, many babies are born with impairments that slow or impede their development as healthy, productive citizens. The further tragedy is that much of this death and disability is preventable.

Infant mortality and morbidity represent a human and economic loss to the State of Mississippi. The causes of the problem are complex; the solution is multifaceted. The solution requires a broad-based, multidisciplinary approach that includes health planning, education, improved access to health care, and improved quality of care. It must embrace the entire continuum of maternal and infant health. Further, it demands participation at the local level by all aspects of the community and requires prudent utilization of assets through regionalized systems of care and shared resources. It requires a commitment of leadership at the state level as demonstrated by appropriate agency coordination, legislative authorization, and adequate funding.

It is essential that Mississippi place a priority on decreasing the state's infant mortality and morbidity rates. To do this, representatives of agencies and organizations, health professionals, and citizens with an interest in working toward this goal should be brought together to assist the Office of the Governor in developing strategies and initiatives to impact the problem.

As a result, I, Ray Mabus, Governor of the State of Mississippi, pursuant to the authority vested in me by the Constitution and applicable statutes of this State hereby establish the Infant Mortality Task Force whose duties, powers and responsibilities shall be as follows:

1. The Task Force shall consist of a Chairperson and not fewer than 25 members appointed by the Governor. Membership shall include representatives of the public, private, and academic health care sectors, state policy makers with responsibility for the health, education and well-being of child-bearing age women, advocates and other interested citizens. Membership shall be geographically and demographically diverse.
2. The Task Force shall meet quarterly unless otherwise directed by the Governor or the Chairperson.
3. The Task Force shall serve as an official advisory group to the Governor on needs, policies, and legislation relating to infant mortality and morbidity.
4. The Task Force shall seek information from individuals, organizations, and agencies involved in perinatal health care and education about infant mortality and morbidity.

5. The Task Force shall conduct studies about infant mortality and morbidity and methods of prevention.
6. The Task Force shall provide public awareness and advocacy on topics and issues related to infant mortality and morbidity.
7. The Task Force shall be subject to the Open Meetings Law and Mississippi Public Records Law, and shall record all meetings, briefings, hearings and deliberations.

EXECUTIVE ORDER NO. 678

The future of our State's economy depends on many people acting in the spirit of entrepreneurship. To strengthen our State's economic future, we must take definite steps to increase the capacity of minorities and women to compete locally, nationally and internationally in a business environment. State government plays a significant role in our economy through the opportunities it creates for private business. Historically, minorities and women have had little access to these opportunities. Minority business development programs vary in scope and detail, but they all share the common concern that without strong state action, minority-owned enterprises are likely to remain underdeveloped. We must review our system to be sure all segments of the private sector have access to these economic opportunities. We must remove the barriers.

On January 7, 1991, I issued Executive Order No. 656, establishing goals for the State of Mississippi in efforts to enhance minority business development. In addition, to ensure that Mississippi will strive to reach these goals, I appointed a Special Assistant to the Governor who will translate these goals into specific plans of action.

In assessing our progress in this endeavor, there is a need to channel more resources towards enhancing minority business development. Therefore, I, Ray Mabus, Governor of the State of Mississippi, hereby create an Advisory Board to assist the Special Assistant to the Governor on enhancing minority business development.

The Advisory Board will advise the Special Assistant to the Governor on avenues, given his responsibilities, geared toward the attainment of the goals set to enhance minority business development.

The policies and goals developed by Executive Order No. 656 shall be deemed essential to the State of Mississippi. It shall be the duty of every department, agency, office, institution and political subdivision of the State of Mississippi and the officers and employees thereof, to cooperate with Members of the Advisory Board through the Special Assistant to the Governor in every reasonable way to meet these critical policies and goals.

TO THE COMMISSIONER OF THE MISSISSIPPI DEPARTMENT OF CORRECTIONS:

Michael Lindsey, MSP # 49948, was sentenced in Hinds County, Mississippi, on May 20, 1981, to serve a term of twenty five (25) years with ten (10) years suspended in the Mississippi State Penitentiary for Armed Robbery.

Michael Lindsey was granted an indefinite suspension of sentence by then Governor William F. Winter, pending his future good behavior and on condition that it could be revoked at any time without notice or hearing for violation of any of the conditions attached to the suspension and for any reason deemed sufficient to the Governor.

Michael Lindsey was under the supervision of the Mississippi Department of Corrections during and throughout the period of suspension of sentence as though on parole and all rules and regulations of parole applied.

On July 30, 1991, Mr. Lindsey was present for a hearing before the Parole Board. The Board determined that he had violated the conditions of his suspension by failing to report, changing residence without permission, using drugs and alcohol, visiting places of bad reputation, associating with persons of bad reputation, failing to truthfully answer questions from his parole officer, committing assault and vandalism, and failing to attend alcohol and drug treatment programs.

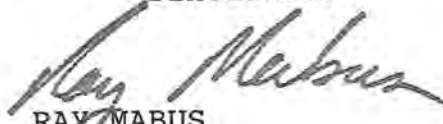

As a result, I, Ray Mabus, Governor of the State of Mississippi, under and by virtue of the authority vested in me by the Constitution and applicable statutes of this State, do hereby order that the indefinite suspension granted to Michael Lindsey, MSP # 49948, dated February 10, 1983, be revoked.

This revocation is issued at the request of the Parole Board and upon recommendation of Carmen Castilla, Chairman of the Parole Board.

I authorize and direct you, upon receipt of this Executive Order, to take notice and be governed accordingly.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

He requires a tremendous amount of nursing care and will not be able to be housed in any type of general population. Several weeks ago, Mr. Swington had acute, sudden and severe bleeding from the opening in his neck where he breathes. Chest surgery was performed to repair a ruptured artery. EXECUTIVE ORDER NO. 673

TO THE COMMISSIONER OF THE MISSISSIPPI DEPARTMENT OF CORRECTIONS:

On April 26, 1991, I proclaimed a state of emergency to exist for the entire State of Mississippi due to extensive flooding associated with record-breaking amounts of rainfall. The rainfall continued through the month of May, 1991, and has resulted to date in a total of thirty-five counties being declared disaster areas by the federal government.

Inmates under the custody of the Mississippi Department of Corrections volunteered their assistance to the civilian authorities in working to alleviate the emergency conditions by participating in various work details associated with the emergency.

The inmates satisfactorily performed services for the citizens of Mississippi, resulting in the saving of public and private property. The State's policy is to encourage rehabilitation and a sense of public responsibility on the part of inmates and to provide for needed urgent assistance during emergency situations. Therefore, the inmates are to be compensated by granting a commutation and reduction of sentence commensurate with the volunteer work performed by them.

As a result, I, Ray Mabus, Governor of the State of Mississippi, under and by virtue of the authority vested in me by the Constitution and applicable statutes of this State, do hereby grant the inmates who volunteered and satisfactorily performed work during the state of emergency, as reflected by the work day schedule maintained by the Commissioner of the Department of Corrections, thirty days executive good time for the first day worked and ten days for each additional day worked, provided that the total executive good time credited to any inmate during the entire period of incarceration shall not exceed the lesser of ten percent of the aggregate term of sentence or one hundred eighty days.

Executive good time granted by this order will count toward parole and/or discharge, but will not apply to reduction of mandatory sentences.

This executive good time is granted at the request of the Department of Corrections and is based upon the recommendation of the Commissioner of the Department of Corrections.

Executive Order No. 669 issued June 5, 1991, is hereby modified to reflect the foregoing.

I authorize and direct you, upon receipt of this order, to take notice and be governed accordingly.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

Office of the Governor

EXECUTIVE ORDER NO. 672

The increasing availability and use of illegal drugs in Mississippi is of great concern to the citizens of this State because the steady increase in illegal drug trafficking harms the health, safety and welfare of our citizens and undermines the communities in which we live.

In the past, the Mississippi Highway Safety Patrol, the Mississippi Bureau of Narcotics and the Mississippi Wildlife, Fisheries and Parks Department, assisting local law enforcement agencies, have been directly involved in the eradication of domestically cultivated marijuana.

These law enforcement agencies, acting separately and together, seized and destroyed millions of dollars of domestically cultivated marijuana in 1990. Nevertheless, the various state and local law enforcement agencies working to eradicate domestically produced marijuana have observed that the number of fields of marijuana being grown in Mississippi is increasing.

The Mississippi Highway Safety Patrol, the Mississippi Bureau of Narcotics, the Mississippi National Guard and the Mississippi Wildlife, Fisheries and Parks Department are state agencies having jurisdiction and/or resources available to contribute to a coordinated multi-agency program to eradicate marijuana cultivated in Mississippi.

The interests of these departments and agencies as well as the citizens of the State will be furthered and well-served by the establishment of a coordinated, multi-agency program to eradicate domestically cultivated marijuana and to arrest and prosecute individuals involved in the domestic cultivation of marijuana.

As a result, I, Ray Mabus, Governor of the State of Mississippi, pursuant to the authority vested in me by the Constitution and applicable statutes of this State do hereby order and direct the following:

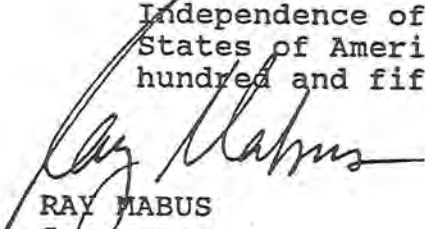

1. A multi-agency task force consisting of the Mississippi Highway Safety Patrol, the Mississippi Bureau of Narcotics, the Mississippi National Guard and the Mississippi Wildlife, Fisheries and Parks Department be created for the purpose of detecting and eradicating domestically cultivated marijuana and arresting and prosecuting individuals involved in the domestic cultivation, distribution and sale of marijuana.
2. For the purpose of planning and implementing the activities, programs and procedures of this task force, the chief executive officer of each agency included in the task force shall be members of and shall comprise the operating committee. The operating committee shall determine the frequency and nature of its meetings, and the members of the Committee may appoint personal representatives to serve in their absence.
3. The Mississippi Bureau of Narcotics shall, with the assistance and concurrence of the operating committee, coordinate the activities, programs and procedures of the task force.

4. Nothing in this Executive Order shall be construed to vest in any agency serving on or assisting the task force, any authority or jurisdiction beyond the authority and jurisdiction vested in the agency by law, and to this end, each department and agency participating on the task force shall retain its full statutory power and authority to pursue other actions and investigations independent of the task force when such independent actions are necessary, appropriate or advisable.
5. The task force, or an individual member agency acting on behalf of the task force, may call upon other state departments and agencies for assistance and to the extent possible, such departments and agencies shall provide the assistance required.
6. The task force, to the extent possible and in the manner deemed appropriate by the operating committee, shall coordinate its activities and programs with federal law enforcement agencies, other federal authorities, district attorneys and local law enforcement agencies.
7. The state agencies comprising this task force shall, to the extent permissible by state and federal law, fund their activities as task force members from their agency and departmental budgets as appropriated by the Legislature; provided, however, that the task force, or any agency member of the task force acting on behalf of the task force, may apply for, receive and expend federal grant funds or other funds made available for the purpose of eradicating marijuana. These funds shall be received and expended in accordance with applicable legal requirements.
8. The task force shall develop and use a common system of reporting the amount and value of marijuana seized as a result of the activities of the task force and each agency member thereof and the number of arrests made and seizures obtained as a result of the work of the task force. On December 15, 1991, the task force shall submit to the Governor a report of the activities of the task force during the preceding year with regard to the detection and eradication of domestically cultivated marijuana and the persons arrested or convicted for cultivating, possessing, selling or distributing domestically produced marijuana, together with an outline of the problems encountered by the task force and recommendations for future programs designed to eradicate domestically produced marijuana.

EXECUTIVE ORDER NO. 671

The increasing availability and use of illegal drugs in Mississippi is of great concern to the citizens of this State. Due to the increase in drug trafficking and related activities, there is a need for state, local and federal agencies to engage in a collaborative effort to combat the harm this illegal activity causes the health, safety and welfare of our citizens. State v. McPhail, 180 So. 387 (Miss. 1938)

Upon approval of a state counter-drug plan, the Secretary of Defense and the National Guard Bureau in Washington, D.C. provide federal funding to State National Guard Units to allow guardsmen to assist law enforcement agencies in drug interdiction in accordance with 32 U.S.C. Section 112. The Mississippi National Guard recently received approval of its Counter-Drug Plan for fiscal year 1991 from the Secretary of Defense and the National Guard Bureau. The Mississippi National Guard received in excess of three million dollars for counter-drug activities for fiscal year 1991 and expects a like amount for fiscal year 1992.

As a result, I, Ray Mabus, Governor of the State of Mississippi, pursuant to the authority vested in me by the Constitution and applicable statutes of this State and in order to ensure appropriate funding from the Secretary of Defense and National Guard Bureau, authorize the Mississippi National Guard to provide needed support to federal, state, county and local law enforcement agencies to assist in counter-drug activities. Members of the Mississippi National Guard can be armed when taking part in counter-drug activities when a determination is made by the Mississippi Military Department and the federal, state, county or local law enforcement agency being supported that arming is necessary for self-defense purposes.

IN WITNESS WHEREOF, I have hereunto
set my hand and caused the

EXECUTIVE ORDER NO. 670

On April 26, 1991, I proclaimed a state of emergency to exist for the entire State of Mississippi due to flooding associated with record-breaking amounts of rainfall. These extensive amounts of rainfall continued to plague our State through the month of May and have resulted to date in a total of 32 counties being declared disaster areas by the federal government.

Severe weather beginning in late April, 1991, and continuing into May, led to widespread, prolonged flooding that caused the Mississippi 6 Bridge across the Old Tombigbee River at Bigbee Community in Monroe County to collapse, greatly inconveniencing area residents and placing them in potential peril due to the length of detour necessary for routine and emergency vehicles.

As a result, on May 22, 1991, I further proclaimed a state of emergency to exist in Monroe County because of the hardships associated with the collapse of this bridge.

Because of these emergency proclamations, the Mississippi Highway Department has been able to move quickly in making the necessary repairs to the collapsed bridge. However, these repairs will take a matter of months to complete, and a resulting hardship will continue as long as no crossing exists at the Bigbee Community.

In consideration of the health, safety and well-being of the residents within the affected area, and in the public interest, all steps should be taken to protect people and property, including construction of a temporary crossing, if possible.

As a result, I, Ray Mabus, Governor of the State of Mississippi, pursuant to the authority vested in me by the Constitution and applicable statutes of the State of Mississippi, particularly Title 33, Chapter 15, Mississippi Code of 1972, and in the public interest, do hereby direct that the Mississippi Highway Department dedicate the necessary manpower, equipment, funds and expertise to the construction of a temporary crossing of the Tombigbee River as a result of the Highway 6 Bridge collapse in compliance with their emergency responsibilities as set forth in Title 33, Chapter 15, Mississippi Code of 1972 and in Executive Order No. 653, dated November 16, 1990.

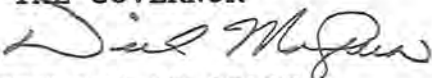

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

EXECUTIVE ORDER NO. 667

Although advances in health science technology and management of diseases have led to marked improvement in the health and longevity of Americans, gaps in health status between minority populations and the white population continue to show disturbing disparities. In Mississippi, thirty-six percent of the population is non-white, of which blacks comprise the highest single minority group. The health status of the black population in Mississippi consequently has a significant impact on the overall health status of the State's population.

While the difference in average life spans between blacks and whites has narrowed since the turn of the century, white Americans still expect to live longer than blacks. While important gaps among other indicators which track black/white progress have closed somewhat over the last few decades, blacks are still far less likely to receive the type and quality of care or experience as positive a health outcome as whites.

There are several risk factors which, if reduced or eliminated, would decrease morbidity and mortality rates in the minority community. Additionally, the lack of early identification of the disease process, lack of access to care and poverty all contribute to the disparity in health status between whites and non-whites. Furthermore, health promotion and wellness programs designed to reduce or eliminate high risk behaviors have been traditionally targeted more toward the majority population.

The State Department of Health recently prepared a report entitled: A Report on Minority Health in Mississippi which identifies and presents the major areas of illness, death and disability experienced by the minority population of this State. It included the following findings:

Intervention plans must come from knowledge and consideration of the minority community;

Health behavior changes must be targeted by models integrating multiple channels of influence, i.e., involvement of community along with health care providers;

Intervention efforts should be incorporated/merged into existing social structures, practice patterns of service providers and educational channels;

Minority community participation should be encouraged at the earliest stages of planning and implementation; and,

Improvements must be made to make health services more accessible to minorities.

As a result, I, Ray Mabus, Governor of the State of Mississippi, hereby establish the Mississippi Minority Health Care Task Force whose duties, powers and responsibilities shall be as follows:

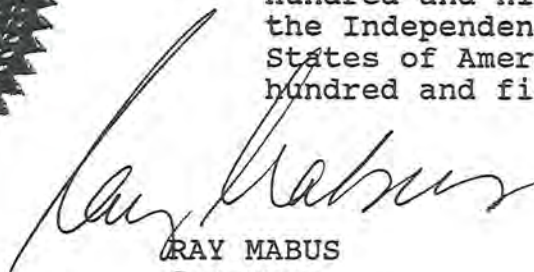

1. To review, study and analyze State and national reports regarding minority health care, including The Report on Minority Health in Mississippi developed by the State Department of Health.

2. To review, study and analyze State and national data and trends regarding minority health status, service delivery problems and recommended alternatives and action.
3. To review exemplary successful reports from other states and to consult with those states on their experiences and outcomes.
4. To develop specific priorities and recommendations for actions to be taken.
5. To receive cooperation and assistance from any existing agency, commission, board or political subdivision of the State having information not privileged or confidential and to utilize the resources and personnel of such agencies in the carrying out of the objectives.
6. To prepare, publish and present a report to the Governor no later than November 15, 1991, to be presented to the Legislature at the 1992 Regular Session concerning the Task Force's findings, recommendations and suggested legislation relating to improving the health status of minorities in this State.
7. The Task Force shall be subject to the Open Meetings Law and Mississippi Public Records Law, and the Task Force shall record all meetings, briefings, hearings and deliberations.
8. Members of the Task Force shall be appointed by the Governor, who shall also designate the Chairman.

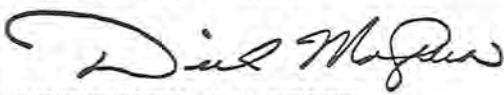

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

DONE at the Capitol in the City of Jackson the 28th day of May in the year of our Lord nineteen hundred and ninety-one and of the Independence of the United States of America the two hundred and fifteenth.

EXECUTIVE ORDER NO. 666

TO THE COMMISSIONER OF THE MISSISSIPPI DEPARTMENT OF CORRECTIONS:

Charles M. Leggett, MSP # 45043, was sentenced in Forrest County, Mississippi, to serve seventeen years in the Mississippi State Penitentiary for robbery.

Charles M. Leggett was granted an indefinite suspension of sentence by then Governor William F. Winter, pending his future good behavior and on condition that it could be revoked at any time without notice or hearing for violation of any of the conditions attached to the suspension and for any reason deemed sufficient to the Governor.

Charles M. Leggett was under the supervision of the Mississippi Department of Corrections during and throughout the period of suspension of sentence as though on parole and all rules and regulations of parole applied.

On April 30, 1991, Mr. Leggett was present for a hearing before the Parole Board. The board determined that he had violated the conditions of his suspension by violating curfew and receiving a one-year sentence in Forrest County on April 1, 1991 for possession of a weapon.

As a result, I, RAY MABUS, Governor of the State of Mississippi, under and by virtue of the authority vested in me by the Constitution and applicable statutes of this state, do hereby order that the indefinite suspension granted to Charles M. Leggett, MSP # 45043, dated December 29, 1982, be revoked.

This revocation is issued at the request of the Parole Board and upon recommendation of Carmen Castilla, Chairman of the Parole Board.

I authorize and direct you, upon receipt of this Executive Order, to take notice and be governed accordingly.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

EXECUTIVE ORDER NO. 657

The criminal justice system is our primary defense in the protection of the public from criminal activity.

The system must be responsive enough to protect the public from criminal actions and to assist the victims of crime while upholding the rights of the accused. The swift detection and apprehension of the suspect, the vigorous prosecution and defense of the accused, a fair and impartial trial, and suitable punishment of the convicted must all be achieved if the system is to work. Only an effective and efficient criminal justice system can truly protect the citizens of Mississippi.

As a result of expanding drug trafficking and associated criminal activity, every component of the system has become overloaded.

A close and critical review of the system as a whole, and of each of its components, is essential to determine how to address the problems which have already developed and those which we can foresee.

With a comprehensive study, legislation and revisions to the budget can be considered.

As a result, I, Ray Mabus, Governor of the State of Mississippi, establish the Criminal Justice Task Force to review and propose changes in the criminal justice system.

1. The Task Force shall be composed of the following individuals:
 - a. three members of the Senate to be chosen by the Lieutenant Governor;
 - b. three members of the House to be chosen by the Speaker of the House;
 - c. the Attorney General;
 - d. the Commissioner of Corrections;
 - e. the Chairman of the Parole Board;
 - f. the Commissioner of Public Safety;
 - g. the Executive Director of the Department of Human Services;
 - h. a Justice of the Supreme Court to be appointed by the Chief Justice;
 - i. two members to be appointed by the Governor who shall include a Circuit Court Judge and a County Court Judge;
 - j. five members to be appointed by the Governor who shall include a sheriff, a chief of police, a district attorney, a county prosecuting attorney and a defense attorney;
 - k. three members to be appointed by the Governor who shall include a mayor, a member of a board of supervisors and a councilman or alderman;

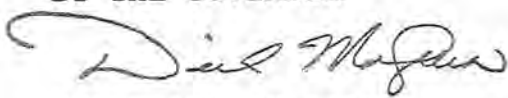

1. six representatives to be appointed by the Governor who shall include representatives of higher education, secondary education and mental health professionals; and
- m. other community members who shall include juvenile justice professionals.
2. The Chairman of the Task Force, appointed by the Governor, shall call an organizational meeting as soon as practicable.
3. The Task Force shall have the authority to hold public hearings, to hold briefing sessions, to receive written and oral testimony, to place witnesses under oath, to prepare a transcript of its proceedings, to create subcommittees (named by the Chairman), and other such powers as it may need to discharge its responsibilities.
4. The Task Force shall seek information, briefings and/or testimony from all individuals, organizations and agencies that are part of the criminal justice system.
5. No later than April 30, 1992, the Task Force shall submit a written report to the Governor with regard to proposed changes to the existing criminal justice system. The report shall contain the following:
 - a. Proposed legislation to effect necessary changes.
 - b. Estimated cost of proposed changes.
 - c. Recommendations for implementation of those changes.
 - d. Recommendations for further study.
6. The Governor's Office of Policy Development and the Department of Public Safety shall serve as staff to the Task Force. Travel costs shall be reimbursed by the Department of Public Safety.
7. The Task Force shall be subject to the Open Meetings Law and Mississippi Public Records Law, and the Committee shall record all meetings, briefings, hearings and deliberations.

SECRETARY OF STATE

STATE OF MISSISSIPPI

Office of the Governor

EXECUTIVE ORDER NO. 656

The future of our State's economy depends on many people acting in the spirit of entrepreneurship. If one segment of our economy prospers while other segments lag, Mississippi as a whole suffers. We must improve minority business development if we are all to prosper. To create a thriving and resilient economy, all segment of the population must be fully involved. The Mississippi Special Task Force for Economic Development Planning recognized the importance of helping all segments of our State's economy when it stated in its report, Seizing the Future: A commitment to Competitiveness: "Mississippi as a whole is going to have to make it possible for minorities and the most disadvantaged among us to become full participants in Mississippi's economy." We must be committed as a government and a State to all our people.

Efforts to increase minority business enterprise in Mississippi are only marginally succeeding. Black Mississippians comprise 35 percent of our population, but black-owned firms or businesses make up only 13 percent of all business sales in the State. This disparity represents not just an historical lack of capital and business experience in the black community, but also the persistence of barriers to acquiring these resources. Four major factors have limited the growth of minority businesses over the past 20 years: Limited market size, limited access to capital, limited human capital and racial exclusion. Aside from the inequity inherent in the state of minority business enterprise in Mississippi, there is a compelling economic fact of life: Mississippi cannot move into the top ranks of the global economy if its minority population is unable to create business enterprises and see them grow.

To strengthen our State's economic future we must take definite steps to increase the capacity of minorities and women to compete locally, nationally and internationally in a business environment. State government plays a significant role in our economy through the opportunities it creates for private business. Historically, minorities and women have had little access to these opportunities. Minority business development programs vary in scope and detail, but they all share the common concern that without strong state action, minority-owned enterprises are likely to remain underdeveloped. We must review our system to be sure all segments of the private sector have access to these economic opportunities. We must remove the barriers.

Therefore, I, Ray Mabus, Governor of the State of Mississippi, establish the following goals for the State of Mississippi in our efforts to enhance minority business development:

- (a) To provide access to needed capital by targeting public resources to facilitate the formation and expansion of the State's minority-owned businesses;
- (b) To stimulate the interest of minorities in owning their own businesses and to assist, when request, in the development of managerial skills of minority entrepreneurs which are necessary to plan and successfully operate a business;
- (c) To stimulate local economies by providing education and incentives for local public and private participation in activities which promote minority economic development;

- (d) To development and implement programs and practices that will insure access to non-traditional markets for minority business entrepreneurs, and to establish procurement policies within all State governmental agencies encouraging minority business enterprise participation;
- (e) To establish as state policy that contractors and vendors performing work for State agencies reflect the socio-economic make-up of the State and the particular industry. Any entity seeking to provide products or services to State agencies will be evaluated as to compliance with this policy.
- (f) To make State agency directors aware of the importance of purchasing more from minority firms or businesses;
- (g) To make minority firms or businesses more visible to agency managers and personnel responsible for purchasing decisions;
- (h) To employ race neutral efforts to increase purchases from minority firms;
- (i) To employ affirmative purchasing efforts that do not include a set-aside for minority firms;
- (j) The set-aside program as authorized by the Mississippi Reorganization Act of 1990 will be based on a State Disparity Study in compliance with the United State Supreme Court decision of The City of Richmond v. J.A. Croson Co. 488 U.S. 469, 109 S. Ct. 706, 102 L. Ed. 2d 854, (1989); and
- (k) To build evidence about the State's purchasing of commodities, professional services and construction work from non-minority and minority businesses or firms and publish reports on the data collected.

To ensure that Mississippi will strive to reach these goals, I, Ray Mabus, Governor of the State of Mississippi, hereby appoint a Special Assistant to the Governor who will translate these goals into specific plans of action.

The Special Assistant to the Governor's primary goal will be to focus on enhancing minority business development, internal and external, to State government. Job responsibilities include:

- (1) Coordinate the implementation of the Mississippi Department of Economic and Community Development (MDECD) and the Mississippi Department of Finance and Administration (DFA) recommendations on enhancing minority business development;
- (2) Increase the participation and visibility of the Governor's Office in the area of minority business development. This effort includes the development of a comprehensive outreach program for the Governor;
- (3) Monitor DFA enforcement of laws and regulations within its jurisdiction over State procurement and purchasing of goods and services, and coordinate an annual report of governmental agencies' status of business relations with minority businesses to be provided to the Governor, Legislature and the public.
- (4) Work with minority businesses to increase their participation in local and federal procurement opportunities, including coordination with procurement centers.

- (5) Act as an advocate for minority businesses between governmental agencies and the private sector, making state agency directors aware of the importance of purchasing more goods and services from minority firms and encouraging financial institutions to increase their capacity to assist minority business growth and to work with all state agencies to implement existing and future set-aside programs;
- (6) Work with local, State and federal agencies on the development of legislation and programs to enhance minority businesses' participation in the State's economy;
- (7) Work with minority businesses or firms to increase their capabilities through improving access to education, managerial and technical assistance;
- (8) Promote business opportunities for minority businesses and facilitate effective vendor and other viable business relationships;
- (9) Increase minority business participation in the legislative process; and
- (10) Work in cooperation with the Office of Minority Business Enterprise of the Department of Economic and Community Development in carrying out its powers and duties under Section 57-69-5 of the Mississippi Code.

The policies and goals developed by this Executive Order shall be deemed essential to the State of Mississippi. It shall be the duty of every department, agency, office, institution and political subdivision of the State of Mississippi and the officers and employees thereof, to cooperate with the designated Special Assistant to the Governor, Mississippi Department of Economic and Community Development and Mississippi Department of Finance and Administration in every reasonable way to meet these critical policies and goals.

Executive Order No. 655

Prudent management and stewardship of the water resources of Mississippi are vital in order to protect and preserve the natural heritage of the people of our State, who have enjoyed the blessings of, and opportunities afforded by, an abundance of such resources in the past and who are entitled to the continued enjoyment of the benefits of this rich natural heritage for future generations.

The economic prosperity of Mississippi requires a concerted, diligent effort by all officials and agencies in state government, working collectively among themselves and other federal, state and local agencies involved in water resources, to ensure that competent studies and evaluations of the surface water and ground water resources of Mississippi are made, that issues arising from past, present, or future uses of such resources are thoroughly examined and that plans setting forth alternative solutions to water resources problems are generated.

In 1985, the Mississippi Legislature amended Section 51-3-21, Miss. Code Ann. (1972), to specifically require the Mississippi Department of Environmental Quality, acting through its Bureau of Land and Water Resources, to prepare a State Water Management Plan.

Section 51-3-21(3), Miss. Code Ann. (1972), specifically requires the Department to consult with all appropriate federal, state and local agencies in the preparation of a State Water Management Plan.

The Department has not been funded to undertake the water resources planning activities contemplated and mandated by Section 51-3-21, causing Mississippi to fall further behind in efforts to develop a responsive and responsible statewide water resources planning program.

It is essential that Mississippi move forward in the area of water resources planning, and that a group of affected agencies, private sector representatives and legislative leaders be brought together to assist the Department in initiating its effort to comply with the mandates of Section 51-3-21.

As a result, I, Ray Mabus, Governor of the State of Mississippi, established the Mississippi Water Resources Planning Task Force ("the Task Force").

1. The Task Force shall consist of not fewer than 25 members, appointed by the Governor, who shall also designate the Chairman.
2. The Task Force shall have the authority to hold public hearings, to hold public briefing sessions, to receive written and oral testimony, to place witnesses under oath, to prepare a transcript of its proceedings, to create subcommittees (names by the chairman) and other such powers as it may need to discharge its responsibilities.
3. The Task Force shall seek information, briefings, and/or testimony from all individuals, organizations and agencies involved in water management and water resources in Mississippi.

4. The Mississippi Department of Environmental Quality, acting through its Executive Director, shall provide or obtain such information for the Task Force, and coordinate the activities, as may be directed by the Chairman. The Department utilizing such fiscal and other resources that may be available to it, shall provide the Task Force administrative and professional services to assist the Task Force in its activities.
5. The Task Force shall continue to submit written progress reports to the Governor and to the Legislature on a quarterly basis which shall include the following:
 - a. Summary of the results of its meetings.
 - b. Any recommendations for legislative action.
 - c. Proposed plan of work for the Task Force and for the Department of Environmental Quality in order to comply with Section 51-3-21, Miss. Code Ann. (1972).
 - d. Recommendations for work of the Task Force outside the scope of Section 51-3-21, if any.
 - e. Summary of goals and objectives the Task Force plans to accomplish through its work and that of the Department of Environmental Quality.
 - f. Recommendations for further study.
6. The Task Force shall at all times maintain a cooperative and coordinated relationship with such public and private interests as may be necessary or appropriate to effectively and efficiently undertake its assigned duties, so that all constituencies affected by water resources planning, management, and regulation may be involved in the activities of the Task Force.
7. The Committee shall be subject to the Mississippi Open Meetings Law and Mississippi Public Records Law, and the Committee shall keep minutes of all meetings, briefing, hearing and deliberations.
8. The exercise by the Task Force and the Department of the duties conferred by this Executive Order shall be deemed and held to be in the performance of an essential governmental function of the State of Mississippi. It shall be the duty of every department, agency, office, institution and political subdivision of the State of Mississippi, and the officers and employees thereof, to cooperate and assist the Task Force and commission in every reasonable way.
9. The public interest demands, and the general welfare of the people of the State of Mississippi requires, the activities mandated by this Executive Order, so that all present utilization and contemplated future utilization of the water resources of the State of Mississippi may be competently examined, to ensure that such resources are prudently utilized, managed, regulated, and protected, and that the quality of life and economic future of the people of the State of Mississippi will be enhanced and secured.
10. The authority for the existence of the Committee shall cease as of January 1, 1992.

By virtue of the authority vested in me as Governor of the State of Mississippi Executive Order No. 600, dated December 9, 1988, is hereby superseded by Executive Order No. 655 effective January 1, 1991.

Office of the Governor

EXECUTIVE ORDER NO. 646

Today more Mississippians are working and paying taxes than ever before. Employment and economic activity are up and the future looks bright. In spite of this good news, for the last several months the State's corporate income tax collections have fallen below expectations. Consequently, the general fund cash balance on July 1, 1990, was below projections and the Fiscal 1991 revenue projection utilized in adopting the sine die budget will most likely not be realized. Since both the beginning cash balance and all expected revenues were appropriated for the Fiscal Year 1991 budget, it is clear that if no action is taken a deficit will be incurred.

Pursuant to Section 27-104-13, Miss. Code Ann. (Supp. 1990) the Executive Director of the Department of Finance and Administration can reduce appropriations in his discretion if he finds that funds will not be available within the period for which the budget is drawn. Such reductions may be made to general fund and certain special fund agencies in amounts not exceeding five percent (5%) on a discretionary basis.

In addition to the authority given to the Executive Director of the Department of Finance and Administration to make discretionary budget cuts, Section 31-17-123, Miss. Code Ann. (Supp. 1990) mandates such cuts at the end of October in the event revenues fall below ninety-eight percent (98%) of estimates.

As a result of the continuing shortfalls and in order to prevent more drastic cuts in subsequent months, I have instructed the Executive Director of the Department of Finance and Administration to revise certain agency budgets. The Executive Director has reduced appropriations to those agencies that appear most likely to be able to sustain reductions without a serious impairment of priority services to the public and without reductions in existing staff. These budget reductions will be effective September 1, 1990, and will continue for the remainder of the fiscal year.

It is my hope that the budget reductions announced today, along with the availability of the General Fund Stabilization Reserve, will preclude the necessity of further reductions in November. However, because of continuing shortfalls in corporate income tax collections, such reductions may become necessary. The Executive Director of the Department of Finance and Administration will continue to review budgets and monitor revenues on a daily basis.

In addition, I, Ray Mabus, Governor of the State of Mississippi, in order to minimize the effect of any future budget reductions, instruct those executive branch departments that report directly to me to slow their rate of expenditures of general funds by five percent (5%), taking into account the reductions announced today. I also strongly encourage all other departments and agencies to follow this instruction.

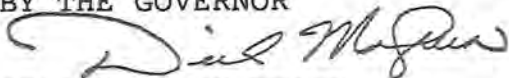

By limiting expenditures as early in the year as possible, agencies should be able to absorb any future reductions with a minimum of interruption and without employee reductions in force. A slow-down in the rate of expenditures will create a cash reserve to lessen the cash-flow impact of decreasing corporate tax collections.

IN WITNESS WHEREOF, I have
hereunto set my hand and
caused the Great Seal of
the State of Mississippi
to be affixed.

EXECUTIVE ORDER NO. 621

Coordination and development of comprehensive services to children birth to 36 months of age at risk of having a disability or with a known disability and vital to Mississippi. The State of Mississippi has approximately 7,000 children from birth to thirty-six months of age who have a known handicap or are at risk of having a handicap due to identified factors. Only about 200 of these children are receiving early developmental intervention services at this time.

In Mississippi each year an average of 368 children are born to mothers 14 years of age or younger; 600 children are born with a very low birth weight of less than 1,500 grams; 1,566 children are living in households of substantiated abuse and neglect; and an estimated 600 children are born with developmental disabilities. All of these children are substantially at risk of developing a disability if no early intervention is provided.

As stated at the National Governors' Association conference in 1986: "Problems associated with early childhood that are not prevented or identified early have negative economic, health, education and social effects through adulthood. The undiagnosed, untreated problems of early childhood today will result in increased accident, death and handicapped rates in six years; and increased juvenile crime, high school drop-out and teenage pregnancy rates in 18 years."

A comprehensive system must be designed to ensure that children and their families are provided quality services arising from existing and proposed resources that are coordinated to offer comprehensive multidisciplinary interagency developmental services. Such a system would recognize the unique role that families play in the development of infants and toddlers with handicaps; must acknowledge the family as an equal partner in the planning and development of infants and toddlers with handicaps; and must acknowledge the family as an equal partner in the planning and development of these services. Elements of the system would include case management, family assessment, child assessment, development of an individualized family service plan, special education instruction, speech therapy, physical therapy, occupational therapy, family training and other services as needed.

Development of such a comprehensive system requires an interagency coordinated and collaborative effort by all officials and agencies in state and federal government involved in human service delivery. The legislative history of Public Law 99-457 underscores the concept of interagency coordination by acknowledging that even in states currently requiring a free appropriate public education from birth, no single agency has the funding, resources, services or authority to provide all services to all children with handicaps.

In 1988, I, Governor Ray Mabus, designated an Interagency Coordinating Council (ICC) to advise and assist in the planning, development and implementation of the activities necessary to operate the interagency statewide system of early developmental services. The Mississippi State Department of Health (MSDH), as the designated lead agency for the single line of responsibility to carry out the general administration, supervision and monitoring of programs and activities required under Part H of P.L. 99-457, is presently working with the ICC to coordinate and develop policies for implementation of services to young children with handicapping conditions.

It is essential that Mississippi move forward in the area of support to families and young children to prevent disabilities or the intensity of disabilities and to enhance the child as a functional part of the community and the State of Mississippi. Therefore, I, as Governor of Mississippi, commission the planning, development and implementation of a statewide, comprehensive, coordinated, multidisciplinary, interagency system of early intervention services for infants and toddlers with handicaps and their families. The statewide system will be in effect no later than the beginning of the State's fourth year of participation under Part H. The State of Mississippi shall provide services to these children and their families contingent upon availability of funds using the policies currently being developed in the following areas:

1. definition of developmental delay
2. central directory of information
3. timetables for serving all eligible children
4. public awareness system
5. comprehensive child find system
6. evaluation and assessment
7. individualized family service plans
8. comprehensive system of personnel development
9. personnel standards
10. procedural safeguards
11. lead agency designation and responsibilities
12. policy for contracting or otherwise arranging for services
13. procedure for timely reimbursement of funds
14. data collection

Public Law 99-457 and the welfare of the people of the State of Mississippi require these activities. The purpose of this Executive Order is to fulfill this commission and to allow for discretionary federal funding towards the provision of statewide services as detailed in this order. Agencies to participate will include the Mississippi State Department of Health, the Mississippi State Department of Education, the Mississippi Department of Human Services, the Mississippi Department of Administration and Finance, the Governor's Division of Medicaid, and all other relevant agencies and entities in the executive branch of state government.

The policies developed and the services commissioned by this Executive Order shall be deemed and held to be in the performance of an essential governmental function of the State of Mississippi. It shall be the duty of every department, agency, office, institution and political subdivision of the State of Mississippi and the officers and employees thereof, to cooperate with and assist the Interagency Coordinating Council and Mississippi State Department of Health in every reasonable way to meet this critical need.

IN WITNESS WHEREOF, I have

STATE OF MISSISSIPPI

Office of the Governor

EXECUTIVE ORDER NO. 618

On August 25, 1988, by Executive Order No. 595, the Governor's Advisory Committee on the Yazoo Basin Projects was created. The charge of the Governor's Advisory Committee was to conduct a full review and evaluation of various flood control projects currently being constructed in the Yazoo River Basin by the United States Army Corps of Engineers.

The projects within the scope of the Governor's Advisory Committee's charge included the proposed pumping Station in the Yazoo Backwater area, channelization and other work along Steele Bayou and Black Bayou in the Big Sunflower River Basin, and channelization, levee and other work along the Yazoo River. The Governor's Advisory Committee was directed to assess the flood control protection to be offered by the projects, their impact on the environment and wildlife habitat and to make recommendations concerning the projects.

The Governor's Advisory Committee was formed because numerous individuals and organizations expressed concern with the focus of the projects and their effect on the environment and wildlife habitats in the Yazoo Basin area.

In February, Chairman W. Wayne Drinkwater, Jr., delivered the final report and recommendations of the Governor's Advisory Committee on the Yazoo Basin Projects. After a lengthy review and evaluation, I released by position statement on the Yazoo Basin Projects on May 10, 1989. My recommendations are as follows:

1. The Projects should be Reviewed and Redesigned; After Modification, They Should be Completed.

The projects should not be abandoned. However, their present agricultural focus is over emphasized and should be modified, and greater emphasis should be placed on effective flood relief in populated areas.

Review and redesign of the projects should focus benefits more specifically on flood control. Although no present purpose of the projects should be abandoned, and their scope should not be increased, the redesign should deemphasize enhancement of agricultural focus and should strive to avoid the draining of wetlands or the clearing of bottomland hardwoods. Redesign should also seek to enhance and protect the environmental quality of the Yazoo Delta.

Review and Redesign of the Projects Should not Endanger Full Federal Funding. The proposed redesign should not expose either the State of Mississippi or other local interests to the risk of sharing in the cost of future construction.

2. No Environmentally Sensitive Work Should Occur During Review and Redesign of the Projects.

While redesign and review of the projects occur, no environmentally sensitive work should be done that might endanger or moot future ability to modify the projects. Construction that poses no environmental dangers or dangers to wildlife habitats, or that focuses primarily on flood control or mitigation of existing environmental damages should be continued during project review. All other project items, whether furnished to the Committee or not, should be halted immediately and no land acquisition related to these project features should be initiated during project review, whether by condemnation or otherwise.

3. Appropriate Mitigation of Environmental Damage Should Occur Concurrently With or in Advance of Project Construction, within Mississippi.

Final Congressional funding for an appropriate mitigation plan should be obtained as a prerequisite to construction on any segment of the projects for which mitigation is necessary. Further, Congressional funding should be obtained to fund mitigation of those portions of the projects already completed, and for which mitigation is needed but has not yet occurred. Insofar as the damage to the environmental and wildlife habitat areas occasioned by the projects is occurring in the Yazoo Basin area, all mitigation activities should occur wholly in the State of Mississippi. Insofar as practicable, all mitigation should occur geographically proximate to the damage for which mitigation is sought, and should involve acquisitions of fee title or easements from willing sellers.

4. A Sedimentation Control Plan Should be Developed and Implemented Concurrently with Construction.

The Corps, in conjunction with appropriate agencies, should develop a plan to reduce the anticipated increase in sediment loads from the projects. Funding should be sought such that the sedimentation control plan can be implemented concurrently with the projects.

5. A Permanent State Committee Should be Created to Review the Progress of the Projects.

Because project construction is now scheduled to continue for another quarter century, and may involve significant additional modifications to the projects, a permanent review committee will be created supported by staff with appropriate technical expertise, to review the progress of the projects, and to allow the people of Mississippi an adequate opportunity to have input into the design and construction process.

Review should occur in advance of finalization of any proposed modification and construction, and the committee will advise the Governor and present its views as to whether any such proposed modification or construction is in the best interest of the people of Mississippi.

This review process should be timed to allow the Governor and all interested parties to give appropriate input to the Congress regarding the future design and construction of the projects.

After a complete review of my recommendation for the Yazoo Basin projects, the United States Corps of Engineers notified me on July 25, 1989, of their intent to fully incorporate my recommendation into their re-evaluation of flood control plan in the Yazoo Basin initiated by them prior to my recommendation coming forth.

In its July 25 letter, the Corps recommended that I designate a coordination group consisting of identified representatives of appropriate state agencies and a specific individual who will serve as a point of contact and overall coordinator for the state.

As a result, I establish the Mississippi State Review Committee of the Yazoo Basin Projects ("The Committee"), to be composed of, representatives from the various state agencies impacted by these projects.

HOUSE BILL NO. 659, the Executive Branch Reorganization Act of 1989, as passed in the 1989 Regular Session of the Mississippi State Legislature, restructures the Executive Branch of State Government, provides for the transfer of employees, property, staff and funds of affected agencies, prescribes general powers and duties of executive directors of departments of the Executive Branch, prescribes a common organizational nomenclature, provides for and prescribes powers and duties of a reorganization transition council, creates the Department of Finance and Administration and establishes certain divisions.

The Executive Branch Reorganization of 1989, amends Sections 7-1-251, 7-1-255, 7-1-257 and 7-1-259, Mississippi Code of 1972, to transfer the Division of Federal-State Programs, Office of the Governor, to the Department of Finance and Administration.

The Executive Branch Reorganization Act of 1989, further provides that certain departments within the Division of Federal-State Programs, Office of the Governor, be transferred.

Presidential Executive Order No. 12372, "Intergovernmental Review of Federal Programs", dated July 14, 1982, as amended on April 8, 1983, revoked on September 30, 1983, U. S. Office of Management and Budget Circular No. A-95 and allowed States, after consultation with local officials, to establish their own process for review and comment on proposed Federal financial assistance and direct Federal development programs and activities.

Presidential Executive Order No. 12372, as amended, increased Federal responsiveness to State and local officials by requiring Federal agencies to accommodate State and local views or explain why it did not, and it allowed States to simplify, consolidate or substitute States plans, if their contents meet Federal requirements, but its provisions would not be applied in the absence of an established State process which required the designation of a State single point of contact.

Executive Order No. 486, dated August 30, 1983, established a State process for review and comment on proposed Federal financial assistance and direct Federal development programs and activities so as to require the Federal agency receiving a recommendation transmitted by the State's designated single point of contact either to: (1) accept the recommendation; (2) reach a mutually agreeable solution with the parties preparing the recommendation; or, (3) provide the single point of contact with a written explanation for not accepting the recommendation or reaching a mutually agreeable solution.

Executive Order No. 486, in compliance with Presidential Executive Order No. 12372, dated July 14, 1982, as amended on April 8, 1983, titled "Intergovernmental Review of Federal Programs" ordered the following:

There is hereby established and adopted the State Intergovernmental Review Process in and for the State of Mississippi, herein called "State process", to provide for the review and comment process on proposed Federal financial assistance and direct Federal development programs and activities, and for the purpose of implementing said Presidential Executive Order, as amended, the Department of Planning and Policy, Division of Federal-State Programs, Office of

the Governor, is hereby designated as the single point of contact between the State process in and for the State of Mississippi and all Federal agencies.

Section 2. The Department of Planning and Policy, the State office designated as the single point of contact between the State process and all Federal agencies, shall:

- A. - B. Provide a means of consulting with local officials.
- C. After consulting with local elected officials, select which Federal programs and activities are to be reviewed through the State process, and send to the U. S. Office of Management and Budget and the appropriate Federal agencies the initial list of selected Federal programs and activities.
- D. After consulting with local elected officials, make changes to the initial list of selected Federal programs and activities as it deems advisable, and send such subsequent changes to said list directly to the appropriate Federal agencies with an assurance that the State has consulted with local elected officials regarding the change.
- E. Comply with the provisions of Mississippi Administrative Procedures Law.
- F. Be the single point of contact in the State of Mississippi to receive notice from a Federal agency of its proposed actions for selected programs and activities and for the review, coordination, recommendations and communications relating to such proposed Federal programs and activities.
- G. Upon notice from a Federal agency of its proposed actions for selected programs and activities, exercise the options available to the State of:
(1) preparing and transmitting a State process recommendation; (2) forwarding the views of commenting officials and entities without a recommendation; or, (3) not subjecting the proposed action to State process procedures.
- H. Communicate with State agencies and local elected officials through the State process as soon as reasonably feasible after receipt of notice from any Federal agency of its proposed programs and activities for review and comment.
- I. To the extent practicable, consult with and seek advice from all other substantially affected State departments and agencies in an effort to assure full coordination between it and such departments and agencies regarding such Federal programs and activities.

- J. Delegate review and comment responsibilities to particular State, areawide, regional or local entities as it deems advisable.
- K. Execute cooperative agreement in the form of a memoranda of understanding with Federal agencies to establish the information to be submitted to it by Federal agencies and the timing of the submittal.
- L. Provide a means of giving notice to prospective applicants for Federal assistance as to how an application is to be managed under the State process.
- M. Transmit the State process recommendation on proposed Federal agency actions under either selected or nonselected Federal programs and activities.
- N. Transmit for Federal agency consideration all views differing from the State process recommendation.
- O. Receive notice from a Federal agency either:
(1) its acceptance of the State process recommendation; (2) its offer to reach a mutually agreeable solution to difference therein; or, (3) its written explanation for not accepting the recommendation or reaching a mutually agreeable solution.
- P. As for as practicable, assist in reaching a mutually agreeable solution between the State process parties which prepared a recommendation and a Federal agency which does not accept such recommendation.

Section 3. The exercise by the Department of Planning and Policy of the duties conferred by this Order shall be deemed and held to be the performance of an essential governmental function of the State of Mississippi as related to the implementation of said Presidential Executive Order, as amended, which supplants said OMB Circular No. A-95.

STATE OF MISSISSIPPI

Office of the Governor

EXECUTIVE ORDER NO. 601

The State of Mississippi, like many other states in our country, suffers from the problems associated with substance abuse. While too many Mississippians are willing participants, a far greater number are innocent bystanders, victims of the criminal and negligent acts of drug and alcohol abusers.

A solution to this problem can only come from a concerted effort of law enforcement officials, prosecutors, judges, legislators, educators, rehabilitation professionals, business leaders, and from the citizenry at large.

The Attorney General's recent Bridge The Gap conferences held throughout the State brought these parties together for the first time.

The participants in these conferences called for the appointment of a Substance Abuse Policy Council which would provide multi-disciplinary planning, coordination and advice to the Governor on these matters.

As a result, I, Ray Mabus, Governor of the State of Mississippi, establish the Substance Abuse Policy Council ("the Council").

1. The Council shall consist of not less than 25 members, appointed by the Governor.
2. The Chairman of the Council shall be the Attorney General. He shall call an organizational meeting of the Council as soon as practicable.
3. The Council shall be composed of the following members:
 - a. A representative from each of the following agencies, chosen by those agencies:
 - Department of Public Safety
 - Bureau of Narcotics
 - Department of Education
 - Department of Health
 - Board of Trustees of the Institutions of Higher Learning
 - State Office of Criminal Justice Planning
 - Department of Corrections
 - State Parole Board
 - Department of Mental Health
 - State Board for Community and Junior College
 - b. The Governor shall also appoint the following members:
 - a district attorney
 - a municipal or county prosecutor
 - a youth court judge
 - a circuit court judge or chancery court judge
 - a justice of the Mississippi Supreme Court
 - a representative of county law enforcement
 - a representative of municipal law enforcement
 - a superintendent of education
 - a principal
 - two teachers
 - two representative of community-based education programs

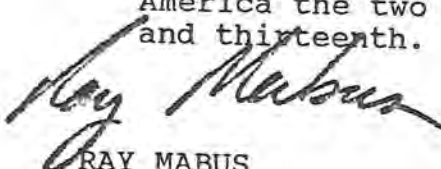

a representative of the Council on Alcoholism
a representative of private treatment facilities
a representative of business and industry
a representative of the medical profession
a representative of organized labor
a representative of the pharmacy profession
ten citizens chosen because of their interest in substance abuse, education, prevention treatment or enforcement, including high school and college students.

- c. The Lieutenant Governor shall appoint two senators to serve on the Council and the Speaker of the House of Representatives shall appoint two representatives to serve on the Council.
4. The members of the Council shall serve a term concurrent with the Governor.
5. The Council shall have the authority to hold public hearings, to hold public briefing sessions, to receive written and oral testimony, to place witnesses under oath, to prepare a transcript of its proceedings, to create subcommittees (named by the chairman), to receive and expend funds and other such powers as it may need to discharge its responsibilities. However, nothing herein shall compel the disclosure of criminal intelligence information.
6. The Council shall seek information, briefings, and/or testimony from all individuals, organizations and agencies involved in substance abuse in Mississippi.
7. The Attorney General's office shall provide or obtain such information for the Council and coordinate the activities. The Attorney General's office, utilizing such fiscal and other resources that may be available to it, shall provide the Council administrative and professional services to assist the Council in its activities.
8. No later than November 1, 1989, the Council shall submit a written report to the Governor and to the Legislature which shall contain the following:
 - a. Summary of the results of its meetings.
 - b. A statewide, comprehensive plan for responding to the substance abuse problems in Mississippi, including proposals for stopping the sale and trafficking of illegal drugs and for educating people about the dangers of using drugs. The plan shall contain specific recommendations for legislative action and for changes in administrative policies that can be accomplished without legislation.
 - c. Recommendations for further study.
9. The Council shall act as a forum for all agencies and officials to meet and coordinate, to the extent practicable, their activities with regard to substance abuse prevention, detection, rehabilitation and treatment.

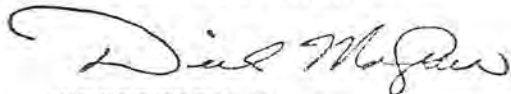

10. Following the November 1, 1989, report, the Council shall continue to submit progress reports to the Governor and to the Legislature on a quarterly basis.
11. The Council shall at all times maintain a cooperative and coordinated relationship with such public and private interests as may be necessary or appropriate to effectively and efficiently undertake its assigned duties, so that all constituencies affected by substance abuse may be involved in the activities of the Council.
12. The Council shall be subject to the Mississippi Open Meetings Law and Mississippi Public Records Law, and the Council shall keep minutes of all meetings, briefing, hearings, and deliberations.
13. Members of the Council shall serve without compensation.
14. The exercise by the Council of the duties conferred by this Executive Order shall be deemed and held to be in performance of an essential governmental function of the State of Mississippi. It shall be the duty of every department, agency, office, institution, and political subdivision of the State of Mississippi, and the officers and employees thereof, to cooperate with and assist the Council in every reasonable way.
15. The authority for the existence of the Council shall cease as of January 1, 1992.

STATE OF MISSISSIPPI

Office of the Governor

EXECUTIVE ORDER NO. 600

Prudent management and stewardship of the water resources of Mississippi are vital in order to protect and preserve the natural heritage of the people of our State, who have enjoyed the blessings of, and opportunities afforded by, an abundance of such resources in the past and who are entitled to the continued enjoyment of the benefits of this rich natural heritage for future generations.

The economic prosperity of Mississippi requires a concerted, diligent effort by all officials and agencies in state government, working collectively among themselves and other federal, state, and local agencies involved in water resources, to ensure that competent studies and evaluations of the surface water and ground water resources of Mississippi are made, that issues arising from past, present, or future uses of such resources are thoroughly examined, and that plans setting forth alternative solutions to water resources problems are generated.

In 1985, the Mississippi Legislature amended Section 51-3-21, Miss. Code Ann. (1972), to specifically require the Mississippi Department of Natural Resources, acting through its Bureau of Land and Water Resources, to prepare a State Water Management Plan.

Section 51-3-21(3), Miss. Code Ann. (1972), specifically requires the Department to consult with all appropriate federal, state, and local agencies in the preparation of a State Water Management Plan.

The Department has not been funded to undertake the water resources planning activities contemplated and mandated by Section 51-3-21, causing Mississippi to fall further behind in efforts to develop a responsive and responsible statewide water resources planning program.

It is essential that Mississippi move forward in the area of water resources planning, and that a group of affected agencies, private sector representatives, and legislative leaders be brought together to assist the Department in initiating its effort to comply with the mandates of Section 51-3-21.

As a result, I, Ray Mabus, Governor of the State of Mississippi, establish the Mississippi Water Resources Planning Task Force ("the Task Force").

1. The Task Force shall consist of not less than 25 members, appointed by the Governor, who shall also designate the Chairman.
2. The Chairman of the Task Force shall call an organizational meeting of the Task Force as soon as practicable.
3. The Task Force shall have the authority to hold public hearings, to hold public briefing sessions, to receive written and oral testimony, to place witnesses under oath, to prepare a transcript of its proceedings, to create subcommittees (names by the chairman), and other such powers as it may need to discharge its responsibilities.

4. The Task Force shall seek information, briefings, and/or testimony from all individuals, organizations and agencies involved in water management and water resources in Mississippi.
5. The Mississippi Department on Natural Resources, acting through its Executive Director, shall provide or obtain such information for the Task Force, and coordinate the activities, as may be directed by the Chairman. The Department, utilizing such fiscal and other resources that may be available to it, shall provide the Task Force administrative and professional services to assist the Task Force in its activities.
6. The Task Force, shall, after appointment of the members, meet at least once prior to the convening of the 1989 Legislature, on a date and at a time and place specified by the Chairman, to begin deliberations regarding the content, scope, and formulation process by which a State Water Management Plan may be produced. The Task Force, at the call of the Chairman, may meet at such additional times as may be necessary or appropriate to conduct the business of the Task Force.
7. No later than April 1, 1989, the Task Force shall submit a written progress report to the Governor and to the Legislature which shall contain the following:
 - a. Summary of the results of its meetings.
 - b. Any recommendations for legislative action.
 - c. Proposed plan of work for 1989 for the Task Force and for the Department of Natural Resources in order to comply with Section 51-3-21, Miss. Code Ann. (1972).
 - d. Recommendations for work of the Task Force outside the scope of Section 51-3-21, if any.
 - e. Summary of goals and objectives the Task Force plans to accomplish through its work and that of the Department of Natural Resources.
 - f. Recommendations for further study.
8. The Task Force shall continue to submit progress reports to the Governor and to the Legislature on a quarterly basis.
9. The Task Force shall at all times maintain a cooperative and coordinated relationship with such public and private interests as may be necessary or appropriate to effectively and efficiently undertake its assigned duties, so that all constituencies affected by water resources planning, management, and regulation may be involved in the activities of the Task Force.
10. The Committee shall be subject to the Mississippi Open Meetings Law and Mississippi Public Records Law, and the Committee shall keep minutes of all meetings, briefing, hearings, and deliberations.

11. The exercise by the Task Force and the Department of the duties conferred by this Executive Order shall be deemed and held to be in the performance of an essential governmental function of the State of Mississippi. It shall be the duty of every department, agency, office, institution, and political subdivision of the State of Mississippi, and the officers and employees thereof, to cooperate with and assist the Task Force and commission in every reasonable way.
12. The public interest demands, and the general welfare of the people of the State of Mississippi requires, the activities mandated by this Executive Order, so that all present utilization and contemplated future utilization of the water resources of the State of Mississippi may be competently examined, to ensure that such resources are prudently utilized, managed, regulated, and protected, and that the quality of life and economic future of the people of the State of Mississippi will be enhanced and secured.
13. The authority for the existence of the Committee shall cease as of January 1, 1991.

IN WITNESS WHEREOF, I have
hereunto set my hand and
caused the Great Seal of the
State of Mississippi to be

SECRETARY OF STATE

STATE OF MISSISSIPPI

Office of the Governor

EXECUTIVE ORDER NO. 598

Good health is fundamental to optimum productivity at home, at school, and in the workplace.

Mississippi continues to rank unfavorably in such health indices as infant mortality, blindness, mental illness, mental retardation, and deaths from strokes and hypertension, and Mississippians suffer high rates of such diseases as high blood pressure, diabetes, heart disease, sickle cell anemia, and sexually transmitted disease.

Mississippi has a large indigent population as well as a large number of working poor who have no health insurance coverage and no means of paying for health care; all persons, regardless of their ability to pay, are entitled to the same standard of health care.

Mississippi's hospitals are currently shouldering nearly one-half billion dollars in uncompensated care. Many of these hospitals, especially those in non-urban areas, serve a disproportionate number of elderly and poor whose care is underwritten by Medicaid and Medicare, which only cover a part of the cost.

The Medicaid program, for which Mississippi will receive an 80.18/19.915 federal/state matching rate for medical services beginning October 1, 1990, could be utilized to a greater extent by expanding eligibility and encouraging greater provider participation.

Recent passage of catastrophic health care federal legislation, will permit greater use of the Medicare program for long-term care, freeing up Medicaid funds now being used.

Factors such as the nursing shortage, the declining number of physicians entering family practice, the soaring cost of medical liability insurance, and the maldistribution of providers in our rural state have a negative impact on availability and accessibility of services for all Mississippians especially the poor.

Mississippi can better coordinate health services for the poor by developing systems of health care delivery that utilize both private and public resources.

Recent commendable actions of the Mississippi Legislature, including indigent and rural health studies and expansion of Medicaid, reflect an understanding of the health care problems of the poor and a commitment to alleviating those problems.

As a result, I, Ray Mabus, Governor of the State of Mississippi, establish the Governor's Select Committee on Indigent Health Care.

Office of the Governor

The maintenance of a strong and viable judiciary is essential to the protection of the rights and freedoms of the citizens of the State of Mississippi.

Under the constitution and laws of the State of Mississippi, the Governor is authorized to fill by appointment certain vacancies in judicial office.

It is my firm belief that only the most qualified, conscientious, and dedicated persons available should be appointed to serve the public as judicial officers.

As a result, I, Ray Mabus, Governor of the State of Mississippi, under and by virtue of the constitution and laws of this state, do hereby promulgate the following Executive Order effective immediately. All previous Executive Orders previously issued pertaining to the Judicial Nominating Committee or the subject matter of this Executive Order are superseded and rescinded.

5. Bar committee members shall initially be appointed for staggered terms for one, two, or three years. Upon expiration of the term of any Bar member, the Governor shall appoint a successor Bar committee member for a term of three years.
6. When a vacancy occurs on the committee due to the resignation, disability, or death of a member, a successor shall be chosen by the Governor for the unexpired term in the same manner as was used to choose the member to be replaced.
7. No member of the Judicial Nominating Committee shall be eligible for appointment to judicial office or reappointment to the nominating committee until after the expiration of one year from the date of the member's resignation or completion of the member's term.
8. The Governor shall designate an ex-officio Secretary, to serve at the Governor's will and pleasure, who shall be responsible for maintaining the records of the nominating committee.
9. The six members appointed from each Supreme Court District shall constitute a subcommittee, each bearing the number of the Supreme Court District they serve. The chairman of the Judicial Nominating Committee shall serve as ex-officio chairman of each subcommittee, or may appoint a member of that subcommittee to serve as its chairman.
10. Wherever a vacancy occurs in a Circuit, Chancery, or County judicial office, upon the call of the Governor, the subcommittee whose jurisdiction embraces the judicial district of the office shall meet to consider the qualifications and eligibility of all proposed nominees for appointment. The subcommittee shall seek, receive, and review applications and other information concerning the qualifications and eligibility of nominees. The subcommittee shall notify the Bar Associations and other such organizations, as the subcommittee shall deem appropriate, of the existence of such vacancy and of the nomination procedure to be followed by the subcommittee, and shall request nominations. 17. Nothing in this order is intended to in any way impair or delegate the constitutional and statutory duties or prerogatives of the Governor in the filling of vacancies of judicial office by appointment. The right to reject any or all of the nominees so selected and recommended is reserved unto the Governor.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.
